

## **M/A-COM Technology Solutions Names WIN Semiconductors Corp. “Foundry Supplier of the Year”**

November 23, 2011

M/A-COM Technology Solutions Names WIN Semiconductors Corp. “Foundry Supplier of the Year” **Lowell, MA, November 23, 2011** -M/A-COM Technology Solutions Inc. (M/A-COM Tech), a leading supplier of high performance analog semiconductor solutions, announced today that it has honored WIN Semiconductors Corporation with its Foundry Supplier of the Year Award for 2011.

WIN Semiconductors provides M/A-COM Tech with market leading GaAs MMIC foundry services across a broad range of HBT and pHEMT technologies. The superior level of support and comprehensive technology portfolio provided by WIN Semiconductors’ advanced foundry services has facilitated M/A-COM Tech’s development and introduction of new products in many of its markets. This award recognizes WIN Semiconductors for its outstanding performance in quality and service, technology development, and strategic collaboration.

“WIN Semiconductors is one of our most trusted suppliers. Our close collaboration with WIN enhances the performance and quality of our products and greatly reduces time to market,” said Bob Donahue, Chief Operating Officer of M/A-COM Tech. “We thank WIN for its continued dedication to high quality, fast cycle times, and collaborative engagement with our team.”

Yu-Chi Wang, Chief Executive Officer of WIN Semiconductors, stated, “It is a great honor to receive this award. Our successful foundry relationship with M/A-COM Tech is a testament to our commitment to provide WIN’s customers with superior foundry services that leverage the best possible technology for their products.”

Dennis Chen, Chairman of WIN Semiconductors, added, “We are proud to accept this award from M/A-COM Tech, who has been an outstanding customer for many years. We continually strive to advance our foundry services and look forward to continually exceed their expectations in the future.”

### **ABOUT M/A-COM TECHNOLOGY SOLUTIONS INC.**

M/A-COM Technology Solutions ([www.macomtech.com](http://www.macomtech.com)) is a leading supplier of high performance analog semiconductor solutions for use in radio frequency (RF), microwave, and millimeter wave applications. Recognized for its broad portfolio of products, M/A-COM Tech serves diverse markets, including CATV, wireless infrastructure, optical communications, aerospace and defense, automotive, industrial, medical, and mobile devices. M/A-COM Tech builds on more than 60 years of experience designing and manufacturing innovative product solutions for customers worldwide.

Headquartered in Lowell, Massachusetts, M/A-COM Tech is certified to the ISO9001 international quality standard and ISO14001 environmental management standard. M/A-COM Tech has design centers and sales offices throughout North America, Europe, Asia and Australia.

WIN Semiconductors Corporation is a leading global provider of pure-play GaAs wafer foundry services for the wireless, infrastructure and networking markets. WIN provides its foundry partners with a diverse portfolio of Hetero-junction Bipolar Transistor and Pseudomorphic High Electron Mobility Transistor process platforms that support leading edge products for applications from 50 MHz to 100 GHz. Custom products built by WIN Semiconductors Corporation are found in a vast array of markets, including smartphone, mobile infrastructure, optical communications, CATV and automotive applications.

For more than 10 years, WIN has provided foundry services from its state of the art, ISO9001/14001 certified 150mm GaAs facility headquartered in Tao Yuan Shien, Taiwan. This multi-site manufacturing facility has more than 1000 employees and provides WIN customers with a diverse array of device technology platforms and value added services, including DC/RF product testing, Cu wafer bumping and turn-key package solutions for accelerated product development.
