M/A-COM Technology Solutions Showcases New Products at Fiber Optics Expo, 2012

Lowell, Massachusetts, April 9, 2012:

What: M/A-COM Technology Solutions (M/A-COM Tech), a leading supplier of high performance analog semiconductor solutions, is showcasing a broad portfolio of new products for optical communications and networks at the Fiber Optics Expo (FOE) tradeshow in Tokyo, Japan.

Product solutions on display at M/A-COM Tech's Booth # 29-35 include two new modulator drivers and transimpedance amplifiers for 10G, 40G, and 100G systems. The MAOM-002204 100GbE Modulator Driver is an ultra low power quad-channel driver. This integrated driver includes four 28G EML drivers in one surface-mount package.

The portfolio of M/A-COM Tech's 100G Coherent Modulator Drivers have been developed for 100G DP-QPSK applications. The drivers are available as single or dual channel in surface-mount packages, or as a quad-channel in a GPPO package.

When: April 11-13, 2012; Exhibition Hours:

Wednesday, April 11 10:00AM - 6:00PM

Thursday, April 12 10:00AM - 6:00PM

Friday, April 13 10:00AM - 5:00PM

Where: Booth # 29-35, Tokyo Big Sight, Tokyo, Japan.

ABOUT M/A-COM TECHNOLOGY SOLUTIONS INC.

M/A-COM Technology Solutions (www.macomtech.com) is a leading supplier of high performance analog semiconductor solutions for use in radio frequency (RF), microwave, and millimeter wave applications. Recognized for its broad portfolio of products, M/A-COM Tech serves diverse markets including CATV, wireless infrastructure, optical communications, aerospace and defense, automotive, industrial, medical, and mobile devices. M/A-COM Tech builds on more than 60 years of experience designing and manufacturing innovative product solutions for customers worldwide.

Headquartered in Lowell, Massachusetts, M/A-COM Tech is certified to the ISO9001 international quality standard and ISO14001 environmental management standard. M/A-COM Tech has design centers and sales offices throughout North America, Europe, Asia and Australia.
