## **MEDIA ALERT**

### **M/A-COM Technology Solutions Inc. Showcases Product Solutions at GOMACTech 2011**

**Lowell, Massachusetts, March 15, 2011**

**What:** M/A-COM Technology Solutions (M/A-COM Tech) will showcase its standard and custom product solutions for radar, communications and electronic warfare applications during the GOMACTech 2011 conference. A variety of product solutions will be on display in company's booth (#412), including:

- The next generation Multi-function Phased Array Radar (MPAR) transceiver module;
- A product family of HMIC® high power switches; and
- A variety of high power transistors, diodes, attenuators, and other semiconductor solutions that have been the mainstay of DoD systems.

M/A-COM Tech has more than 60 years experience in solving complex circuit design, packaging issues and manufacturing challenges, and uses a high volume, dual-use manufacturing approach that enables lower costs, while maintaining critical performance and reliability for stringent defense requirements.

**When:** March 22-23, exhibition hours:

Tuesday, March 22	12:00pm – 8:00pm
Wednesday, March 23	9:00am – 4:00pm

**Where:** Booth #412, GOMACTech Exhibition – Doubletree Hotel, Orlando, Florida

#### **ABOUT M/A-COM TECHNOLOGY SOLUTIONS INC.**

M/A-COM Technology Solutions Inc. (M/A-COM Tech) is a leading supplier of semiconductors, active and passive components, and subassemblies for use in radio frequency (RF), microwave and millimeter wave applications. The company provides innovative design solutions and products including:

- Si, GaAs, InGaAs, InP and SiGe IC products
- Unique MMIC processes: HMIC™ and GMIC™
- In-house design, fabrication, assembly and screening capabilities
- Multiple facilities for improved flexibility and local content manufacturing
- Design expertise covering the spectrum from RF through millimeter wave frequencies
- One of the broadest selections of standard and custom products in the industry

Headquartered in Lowell, Massachusetts, M/A-COM Tech builds on some 60 years of experience to develop and manufacture active and passive products, including Si and compound semiconductors from facilities in Lowell, MA, and Torrance, CA. Infrastructure products continue to be provided by the company's facility in Cork, Ireland, and Laser Diode products in Edison, New Jersey. M/A-COM Tech is certified to ISO 9001, AS 9100 and QS-9000.
