PROXY STATEMENT
FOR THE 2018 ANNUAL MEETING OF STOCKHOLDERS

GENERAL INFORMATION CONCERNING PROXIES AND VOTING AT THE ANNUAL MEETING

Why did I receive these proxy materials?

We are providing these proxy materials in connection with the solicitation by the board of directors of MACOM Technology Solutions Holdings, Inc., a Delaware corporation (the “Company,” “we,” “us” or “our”), of proxies to be voted at our 2018 Annual Meeting of Stockholders (the “Annual Meeting”) and at any adjournment or postponement of the Annual Meeting. In accordance with rules of the Securities and Exchange Commission (the “SEC”), on or about January 16, 2018, we sent a Notice of Internet Availability of Proxy Materials and provided access to our proxy materials over the Internet to the holders of record and beneficial owners of our common stock as of the close of business on January 8, 2018 (the “Record Date”).

The Annual Meeting will be held at the Radisson Hotel, located at 10 Independence Drive, Chelmsford, Massachusetts 01824, on Thursday, March 1, 2018 at 3:00 p.m. (Eastern Time).

What information is included in this Proxy Statement?

The information in this Proxy Statement relates to the proposals to be voted on at the Annual Meeting, the voting process, our board of directors and board committees, the compensation of current directors and our current named executive officers for fiscal year 2017 and other information.

Who is entitled to vote?

Holders of our common stock at the close of business on the Record Date are entitled to receive the Notice of Annual Meeting of Stockholders and vote at the Annual Meeting. As of the close of business on the Record Date, there were 64,401,751 shares of our common stock outstanding and entitled to vote.

How many votes do I have?

On any matter that is submitted to a vote of our stockholders, the holders of our common stock are entitled to one vote per share of common stock held by them. Holders of our common stock are not entitled to cumulative voting in the election of directors.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Most stockholders hold their shares through a broker, trust, bank or other nominee rather than directly in their own names.

If, on the Record Date, your shares were registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, LLC, then you are a stockholder of record. As a stockholder of record, you may vote in person at the Annual Meeting or vote by proxy. Whether or not you plan to attend the Annual Meeting, we urge you to vote over the Internet, by telephone or by filling out and returning a proxy card to ensure your vote is counted.

[Table of Contents](#)

If, on the Record Date, your shares were held in an account at a brokerage firm, trust, bank, dealer or other similar organization, then you are the beneficial owner of shares held in “street name” and these proxy materials are being forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct your broker or other agent on how to vote the shares in your account. You are also invited to attend the Annual Meeting. However, since you are not the stockholder of record, you may not vote your shares in person at the Annual Meeting unless you request and obtain a valid legal proxy or letter from your broker, trust, bank or other nominee.

What am I voting on?

We are asking you to vote on the following matters in connection with the Annual Meeting:

1. The election of the two Class III directors nominated by our board of directors and named in the accompanying proxy materials to serve until the 2021 Annual Meeting of Stockholders;
2. Ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending September 28, 2018; and
3. Such other business as may properly come before the Annual Meeting and any adjournment or postponement thereof.

How do I vote?

Vote by Internet. Stockholders of record may submit proxies over the Internet by following the instructions on the Notice of Internet Availability of Proxy Materials or, if printed copies of the proxy materials were requested, the instructions on the printed proxy card. Most beneficial stockholders may vote by accessing the website specified on the voting instruction forms provided by their brokers, trustees, banks or other nominees. Please check your voting instruction form for Internet voting availability.

Vote by Telephone. Stockholders of record may submit proxies using any touch-tone telephone from within the United States by following the instructions on the Notice of Internet Availability of Proxy Materials or, if printed copies of the proxy materials were requested, the instructions on the printed proxy card. Most beneficial owners may vote using any touch-tone telephone from within the United States by calling the number specified on the voting instruction forms provided by their brokers, trustees, banks or other nominees.

Vote by Mail. Stockholders of record may submit proxies by mail by requesting printed proxy cards and completing, signing and dating the printed proxy cards and mailing them in the pre-addressed envelopes that will accompany the printed proxy materials. Beneficial owners may vote by completing, signing and dating the voting instruction forms provided and mailing them in the pre-addressed envelopes accompanying the voting instruction forms.

If you are a stockholder of record and you return your signed proxy card but do not indicate your voting preferences, the persons named in the proxy card will vote the shares represented by that proxy as recommended by the board of directors. If you are a beneficial owner and you return your signed voting instruction form but do not indicate your voting preferences, please see “What are ‘broker non-votes’ and how do they affect the proposals?” regarding whether your broker, trust, bank or other nominee may vote your uninstructed shares on a particular proposal.

Vote in Person at the Annual Meeting. All stockholders of record as of the close of business on the Record Date can vote in person at the Annual Meeting. You can also be represented by another person at the Annual Meeting by executing a proper proxy designating that person. If you are a beneficial owner, you must obtain a legal proxy or letter from your broker, trust, bank or other nominee and present it to the inspector of election with your ballot to be able to vote at the Annual Meeting. Even if you plan to attend the Annual Meeting, we recommend that you also vote either by telephone, by Internet or by mail so that your vote will be counted if you decide not to attend.

[Table of Contents](#)

What does it mean if I receive more than one set of materials?

If you receive more than one set of materials, your shares are registered in more than one name or are registered in different accounts. In order to vote all of the shares you own, you must either sign and return all of the proxy cards or follow the instructions for any alternative voting procedures on each of the proxy cards or Notice of Internet Availability of Proxy Materials you receive.

What can I do if I change my mind after I vote?

If you are a stockholder of record, you may revoke your proxy at any time before it is exercised at the Annual Meeting by (a) delivering written notice, bearing a date later than the proxy, stating that the proxy is revoked to MACOM Technology Solutions Holdings, Inc., 100 Chelmsford Street, Lowell, MA 01851, Attn: General Counsel, (b) submitting a later-dated proxy relating to the same shares by mail, telephone or the Internet prior to the vote at the Annual Meeting or (c) attending the Annual Meeting and voting in person. Stockholders of record may send a request for a new proxy card via e-mail to sendmaterial@proxyvote.com, or follow the instructions provided on the Notice of Internet Availability of Proxy Materials and proxy card to submit a new proxy by telephone or via the Internet. Stockholders of record may also request a new proxy card by calling 1-800-579-1639.

If you are a beneficial stockholder, you may revoke your proxy or change your vote only by following the separate instructions provided by your broker, trust, bank or other nominee.

What constitutes a quorum at the Annual Meeting?

Transaction of business at the Annual Meeting may occur only if a quorum is present. If a quorum is not present, it is expected that the Annual Meeting will be adjourned or postponed in order to permit additional time for soliciting and obtaining additional proxies or votes, and, at any subsequent reconvening of the Annual Meeting, all proxies will be voted in the same manner as such proxies would have been voted at the original convening of the Annual Meeting, except for any proxies that have been effectively revoked or withdrawn.

The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the total votes entitled to be cast constitutes a quorum. Abstentions and “broker non-votes” are counted as present and entitled to vote for purposes of determining a quorum.

What are the voting requirements to elect directors and approve each of the other proposals described in this Proxy Statement?

With respect to Proposal 1, the election of directors, each of the two Class III director nominees receiving the largest number of votes will be elected. With respect to Proposal 2, the affirmative vote of a majority of the votes cast on the matter is required for the proposal to be approved. Abstentions and broker non-votes are not counted as votes in favor of or against either proposal.

What are “broker non-votes” and how do they affect the proposals?

A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote the shares on a proposal because the nominee does not have discretionary voting power for a particular item and has not received instructions from the beneficial owner regarding voting. Brokers who hold shares for the accounts of their clients have discretionary authority to vote shares if specific instructions are not given with respect to Proposal 2, the ratification of the appointment of our independent registered public accounting firm. If your shares are held by a broker on your behalf and you do not instruct the broker as to how to vote your shares on Proposal 1, the broker may not exercise discretion to vote for or against that proposal. Broker non-votes are not counted as votes in favor of or against any proposal.

[Table of Contents](#)

Who will pay for the cost of this proxy solicitation?

We will bear the cost of the solicitation of proxies from our stockholders. In addition to solicitation by mail, our directors, officers and employees, without additional compensation, may solicit proxies from stockholders by telephone, letter, facsimile, email, in person or otherwise. Following the original circulation of the proxies and other soliciting materials, we will request brokers, trusts, banks or other nominees to forward copies of the proxy and other soliciting materials to persons for whom they hold shares of our common stock and to request authority for the exercise of proxies. In such cases, we, upon the request of the brokers, trusts, banks and other nominees, will reimburse such holders for their reasonable expenses.

Why did I receive a one-page notice in the mail regarding the Internet availability of proxy materials instead of a full set of proxy materials?

We have elected to provide access to our proxy materials over the Internet. Accordingly, we are sending a Notice of Internet Availability of Proxy Materials to stockholders of record as of the Record Date. Stockholders will have the ability to access the proxy materials on the website referred to in the Notice of Internet Availability of Proxy Materials, or to request to receive an electronic copy or printed set of the proxy materials. Instructions on how to access the proxy materials over the Internet or to request an electronic copy or printed copy may be found in the Notice of Internet Availability of Proxy Materials. In addition, stockholders may request to receive proxy materials in printed form by mail or electronically by email on an ongoing basis. We encourage stockholders to take advantage of the availability of the proxy materials on the Internet to help reduce the environmental impact of the Annual Meeting.

When will we announce the results of the voting?

Voting results will be announced by the filing of a Current Report on Form 8-K within four business days after the Annual Meeting. If final voting results are unavailable at that time, we will file an amended Current Report on Form 8-K within four business days of the day the final results are available.

What are the requirements for admission to the Annual Meeting?

Only stockholders of record and persons holding proxies from stockholders of record may attend the Annual Meeting. If your shares are registered in your name, you must bring a valid form of photo identification, such as a valid driver's license or passport, to the Annual Meeting. If your shares are held in the name of a broker, trust, bank or other nominee that holds your shares, you must bring a legal proxy or letter from that broker, trust, bank or other nominee that confirms you are the beneficial owner of those shares and a valid form of photo identification. Attendance at the Annual Meeting without voting or revoking a previously submitted proxy in accordance with the voting procedures will not in and of itself revoke a proxy.

PROPOSAL 1: ELECTION OF DIRECTORS

Board Composition

As of January 16, 2018, the board of directors was composed of eight members, divided into three classes as follows:

- Class I directors: Peter Chung, Geoffrey Ribar and Gil Van Lunsen, whose current terms will expire at our annual meeting of stockholders to be held in 2019;
- Class II directors: Charles Bland, Stephen Daly and Susan Ocampo, whose current terms will expire at our annual meeting of stockholders to be held in 2020; and
- Class III directors: John Ocampo and John Croteau, whose current terms will expire at this Annual Meeting.

If elected at the Annual Meeting, Messrs. Ocampo and Croteau will serve until the 2021 Annual Meeting of Stockholders, until their respective successor is duly elected and qualified, or until their earlier death, resignation or removal. Proxies will be voted in favor of Messrs. Ocampo and Croteau unless the stockholder indicates otherwise on the proxy. Messrs. Ocampo and Croteau have each consented to being named as nominees in this Proxy Statement and have agreed to serve if elected. The board of directors expects that each of the nominees will be able to serve, but if either nominee becomes unable to serve at the time the election occurs, proxies will be voted for another nominee designated by the board of directors unless the board chooses to reduce the number of directors serving on the board.

**The Board of Directors Recommends a Vote “FOR”
Each of the Class III Director Nominees.**

Mrs. Ocampo's extensive experience investing and serving in financial leadership roles with semiconductor companies strengthens our board of director's oversight of our enterprise risk management, treasury functions and internal financial controls. We also believe that having our largest stockholder (together with Mr. Ocampo and their affiliates) on the board of directors assists the board in making decisions aimed at increasing stockholder value over the long term.

Geoffrey G. Ribar, age 59, is a Class I director who has served as a director since March 2017. Mr. Ribar served as Senior Vice President and Chief Financial Officer of Cadence Design Systems, Inc. Having served as a director of Sirenza, Mr. Van Lunsen has also developed strong domain knowledge of the operational and financial issues facing our Company and our industry.

There are no family relationships among any of our directors or executive officers, other than Mr. Ocampo, the Chairman of the board of directors, and Mrs. Ocampo, a director, who are married to each other.

CORPORATE GOVERNANCE

Board of Directors

Our board of directors and its committees meet throughout the year on a set schedule, and also hold special meetings and act by written or electronic consent from time to time. During fiscal year 2017, including telephonic meetings, our board of directors held ten meetings, the audit committee held eight meetings, the compensation committee held six meetings and the nominating and governance committee held two meetings. Our directors who are “independent” according to the rules and regulations of the SEC and the listing requirements and rules of the Nasdaq Stock Market (“Nasdaq”) also met separately in executive sessions at which only independent directors were present from time to time during fiscal year 2017.

During fiscal year 2017, each member of the board of directors attended 75% or more of the aggregate number of meetings of the board and committees on which he or she served. We encourage, but do not require, our directors and nominees for director to attend our annual meeting of stockholders in person or telephonically. Two of our directors attended our 2017 Annual Meeting of Stockholders held in March 2017.

Director Independence

Our board of directors has reviewed its composition, the composition of its committees and the independence of each member of our board of directors during fiscal year 2017. Based on information requested from and provided by each director concerning his or her background, employment and affiliates, our board of directors has determined that Messrs. Bland, Chung, Daly, Ribar and Van Lunsen qualify as “independent” according to the rules and regulations of the SEC and the Nasdaq listing requirements and rules. As of January 16, 2018, Messrs. Ocampo and Croteau are not independent according to the rules and regulations of the SEC and the listing requirements and rules of Nasdaq because they are our employees, and Mrs. Ocampo is not independent because she is the spouse of one of our executive officers.

The listing requirements and rules of Nasdaq require that, subject to certain exemptions, the board of directors of a listed company be comprised of a majority of independent directors, that the compensation, nominating and governance and audit committees of such listed company be comprised solely of independent directors, that the compensation committee be comprised of at least two independent directors, and that the audit committee be comprised of at least three independent directors. As of January 16, 2018, the composition of our board of directors and its committees satisfied all such requirements.

Board Leadership Structure

Our board of directors does not currently have a policy as to whether the offices of Chairman of the board of directors and Chief Executive Officer should be separate. Our board of directors believes that it should have the flexibility to make this determination as circumstances require and in a manner that it believes is best to provide appropriate leadership for our Company. The board of directors believes that its current leadership structure, with Mr. Ocampo serving as Chairman of the board of directors and Mr. Croteau serving as Chief Executive Officer, is appropriate because it enables the board of directors as a whole to engage in oversight of management, promote communication between management and the board of directors and oversee governance matters and risk management activities, while allowing our Chief Executive Officer to focus on his primary responsibility for the operational leadership and strategic direction of the Company. In addition, the board of directors benefits from the perspective and insights of Messrs. Ocampo and Croteau as a result of their extensive experience in the semiconductor industry.

Risk Oversight

The board of directors oversees our risk management activities. The board of directors implements its risk oversight function both as a whole and through delegation to its committees. These committees meet regularly and report back to the full board of directors. The audit committee has primary oversight responsibility with

[Table of Contents](#)

respect to financial risks as well as oversight responsibility for our overall risk assessment and risk management policies and systems. The audit committee oversees our procedures for the receipt, retention and treatment of complaints relating to accounting and auditing matters and oversees our management of legal and regulatory compliance systems. The compensation committee oversees risks relating to our compensation plans and programs, including the evaluation of whether our compensation programs contain incentives for executive officers and employees to take risks in performing their duties that are reasonably likely to have a material adverse effect on us. The compensation committee believes that we have no compensation policies and programs that give rise to risks reasonably likely to have a material adverse effect on us. The nominating and governance committee oversees risks associated with corporate governance and the composition of our board of directors, including the independence of board members. Each committee reports on its activities to the full board of directors from time to time. This enables the board of directors and its committees to coordinate their respective risk oversight roles.

Board Committees

The board of directors currently has the following standing committees: audit, compensation and nominating and governance. The board of directors has adopted a written charter for each standing committee, each of which may be accessed on the Investor Relations section of our website at <http://ir.macom.com/documents.cfm>. A summary of the duties and responsibilities of each committee is set forth below.

Audit Committee

Our audit committee consists of Messrs. Bland, Daly, Ribar and Van Lunsen, with Mr. Van Lunsen serving as Chair. Our audit committee oversees our corporate accounting and financial reporting process, internal accounting and financial controls and audits of our financial statements. Our audit committee also evaluates the independent auditor's qualifications, independence and performance; engages and provides for the compensation of the independent auditor; establishes the policies and procedures for the retention of the independent auditor to perform any proposed permissible non-audit services; reviews our annual audited financial statements; reviews our critical accounting policies, our disclosure controls and procedures and internal controls over financial reporting; discusses with management and the independent auditor the results of the annual audit and the reviews of our quarterly unaudited financial statements; oversees our financial risk assessment and management programs; reviews our information security and technology risks (including cybersecurity), including our information security and risk management programs; and reviews related person transactions that would be disclosed under Item 404 of Regulation S-K. Our board of directors has determined that each of our audit committee members meets the requirements for independence and financial literacy under the applicable rules and regulations of the SEC and Nasdaq. Our board of directors has determined that each of Messrs. Ribar and Van Lunsen is an audit committee financial expert as defined under the applicable rules and regulations of the SEC.

Compensation Committee

Our compensation committee consists of Messrs. Chung, Daly and Van Lunsen, with Mr. Chung serving as Chair. Our compensation committee oversees our compensation plans, policies and programs for our executive officers and non-employee directors on our board of directors. The compensation committee is also responsible for overseeing our equity compensation and other employee benefit plans, and for reviewing our Compensation Discussion and Analysis. The compensation committee also oversees our submissions to stockholders on executive compensation matters, including stockholder advisory votes on executive compensation and the frequency of such votes, incentive and other executive compensation plans and amendments to such plans and engagement with proxy advisory firms and other stockholder groups on executive compensation matters. Our board of directors has determined that each member of our compensation committee meets the requirements for independence under the applicable rules and regulations of the SEC, Nasdaq and Section 162(m) of Internal Revenue Code of 1986, as amended (the "Code"). Pursuant to its charter, the compensation committee may form and delegate authority to subcommittees and delegate authority to one or more designated members of the

[Table of Contents](#)

committee. The compensation committee may also delegate to one or more senior executive officers the authority to make grants of equity-based compensation to eligible non-officer employees, subject to compliance with applicable laws. For additional discussion of the processes and procedures the compensation committee has used to determine executive officer compensation please refer to the section entitled, “Named Executive Officer Compensation, Compensation Discussion and Analysis – How We Set Executive Compensation.”

During fiscal year 2017, our compensation committee engaged Radford Consulting (“Radford”), a compensation consultant, and reviewed certain survey data and analyses regarding executive and non-employee director compensation compiled by Radford in connection with setting executive compensation. Please see “Director Compensation” and “Named Executive Officer Compensation, Compensation Discussion and Analysis” for further description of the services and data provided by Radford. Prior to receiving the data from Radford, the compensation committee considered the independence of Radford in accordance with the terms of its charter. The committee determined that Radford was independent and did not identify any conflicts of interest with respect to Radford.

Nominating and Governance Committee

Our nominating and governance committee consists of Messrs. Bland, Chung and Van Lunsen, with Mr. Bland serving as Chair. The nominating and governance committee is responsible for identifying individuals qualified to become members of our board of directors, making recommendations regarding candidates to serve on our board of directors and overseeing evaluations of the board of directors and its committees. In making recommendations regarding board candidates, the nominating and governance committee will consider desired board member qualifications, expertise, diversity and characteristics. In addition, the nominating and governance committee is responsible for making recommendations concerning governance matters. The nominating and governance committee is also responsible for reviewing and making recommendations concerning the structure and function of the committees of our board of directors, after consultation with the applicable committee chairs, and for reviewing any stockholder proposals relating to governance matters and our response to such proposals. Our board of directors has determined that each member of our nominating and governance committee meets the requirements for independence under the applicable Nasdaq listing rules.

Pursuant to its charter, the nominating and governance committee will also consider qualified director candidates recommended by our stockholders. The nominating and governance committee evaluates the qualifications of candidates properly submitted by stockholders in the same manner as it evaluates the qualifications of director candidates identified by the committee or the board of directors. Stockholders can recommend director candidates by following the instructions outlined below in the section entitled “Additional Information – Consideration of Stockholder-Recommended Director Nominees.” No nominations for director were submitted to the nominating and governance committee for consideration by any of our stockholders in connection with the Annual Meeting.

The nominating and governance committee may rely on recommendations from a number of sources when identifying potential director candidates, including recommendations from current directors and officers. The committee may hire outside consultants, search firms or other advisors to assist in identifying director candidates.

When evaluating a candidate for director, the nominating and governance committee considers, among other things, the candidate’s judgment, knowledge, integrity, diversity, expertise and strategic, business and industry experience, which are likely to enhance the board of directors’ ability to govern our affairs and business. We do not have a separate policy regarding consideration of diversity in identifying director nominees, but the nominating and governance committee strives to nominate directors with a variety of complementary skills and backgrounds so that, as a group, the board of directors will possess a broad perspective and the appropriate talent, skills and expertise to oversee our business. The nominating and governance committee also takes into account independence requirements imposed by law or regulations (including the Nasdaq listing standards). In the case of director candidates recommended by stockholders, the nominating and governance committee may also consider the number of shares held by the recommending stockholder, the length of time that such shares have been held and the relationship, if any, between the recommending stockholder and the recommended director nominee.

- (2) The amounts included under the "Stock Awards" column reflect the aggregate grant date fair value of the restricted stock unit awards granted in fiscal year 2017 to our non-employee directors, computed in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures. For more information on the underlying valuation assumptions used to calculate grant date fair values, see Notes 2 and 18 to Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended September 29, 2017. As of September 29, 2017, Messrs. Bland, Chung, Daly and Van Lunsen each held unvested restricted stock units with respect to 2,835 shares of our common stock, Mr. Bland held outstanding stock options with respect to 13,500 shares of our common stock, and Mr. Ribar held unvested restricted stock units with respect to 6,063 shares of our common stock.
- (3) On March 3, 2017, we granted each of Messrs. Bland, Chung, Daly and Van Lunsen an annual restricted stock unit award representing 2,835 shares of our common stock for their services as directors during fiscal year 2017. On March 23, 2017, we granted Mr. Ribar a one-time restricted stock unit award representing 3,802 shares of our common stock in connection with his appointment to our board of directors and an annual restricted stock unit award representing 2,261 shares of our common stock for his services as a director during fiscal year 2017. Mrs. Ocampo has not been granted any equity-based compensation from the Company in respect of her service as a director.

Our non-employee directors are compensated under our non-employee director compensation program as described below. Our compensation program for our non-employee directors has two elements: cash compensation and equity-based compensation. Given her substantial holdings of our common stock, to date we have not granted equity-based compensation to Mrs. Ocampo for her service as a director.

Cash Compensation. The cash component of our non-employee director compensation program is as follows:

- a \$45,000 annual cash retainer for each non-employee director;
- an additional annual cash retainer of \$10,000 for each member of the audit committee, \$7,500 for each member of the compensation committee and \$5,000 for each member of the nominating and governance committee, in each case, other than the chair of such committee; and
- an additional annual cash retainer of \$20,000 for the chair of the audit committee, \$15,000 for the chair of the compensation committee and \$10,000 for the chair of the nominating and governance committee.

[Table of Contents](#)

These cash payments are calculated and paid in quarterly installments and are prorated for partial quarters of board or committee service. Non-employee directors are also reimbursed for expenses in connection with attendance at board of directors and committee meetings. Non-employee directors are also eligible for coverage under our health care plans at their election and at their sole expense.

Equity Compensation. Non-employee directors are eligible to receive equity-based awards under the MACOM Technology Solutions Holdings, Inc. 2012 Omnibus Incentive Plan (as amended, our “2012 Omnibus Incentive Plan”). The equity component of our non-employee director compensation program is as follows:

- Each of our non-employee directors is granted an annual restricted stock unit award (or, upon the director’s request, a restricted stock award) on the first business day following the date of our annual meeting of stockholders representing a number of shares of common stock having a grant date fair market value equal to \$130,000. This award vests in full on February 15 of the calendar year immediately following the calendar year of its grant, subject to the non-employee director’s continued service through such date and the terms of our 2012 Omnibus Incentive Plan. If a non-employee director first joins the board of directors after the annual grant for the calendar year of his or her appointment or election has already been made, then he or she is granted an annual restricted stock unit award (or, upon the director’s request, a restricted stock award) on the first business day following his or her appointment or election representing a number of shares of our common stock having an aggregate grant date fair market value equal to \$130,000 pro-rated based on the number of calendar days remaining in the calendar year following such appointment or election. This award vests in full on the first February 15 following its grant date, subject to the non-employee director’s continued service through such date and the terms of our 2012 Omnibus Incentive Plan.
- In addition to and not in lieu of the annual grant described above, when a non-employee director first joins the board of directors, he or she is granted a one-time initial restricted stock unit award (or, upon the director’s request, a restricted stock award) on the first business day following his or her appointment or election representing a number of shares of our common stock having an aggregate grant date fair market value equal to \$170,000. This award vests in three equal annual installments, with the first such vesting date being one year following whichever of February 15, May 15, August 15 or November 15 is soonest to follow the non-employee director’s date of appointment or election, in all cases subject to the non-employee director’s continued service through such date and the terms of our 2012 Omnibus Incentive Plan. Such initial grants are not prorated.

In accordance with our non-employee director compensation program, on March 3, 2017 we granted each of Messrs. Bland, Chung, Daly and Van Lunsen an annual restricted stock unit award representing 2,835 shares of our common stock for their service as directors during fiscal year 2017, which will vest in full on February 15, 2018, subject to such non-employee director’s continued service through such date and the terms of our 2012 Omnibus Incentive Plan. On March 23, 2017, we granted Mr. Ribar a one-time initial restricted stock unit award representing 3,802 shares of our common stock in connection with his appointment to our board of directors, which will vest in three equal annual installments on May 15, 2018, May 15, 2019 and May 15, 2020, and an annual restricted stock unit award representing 2,261 shares of our common stock for his services as a director during fiscal year 2017, which will vest in full on February 15, 2018, subject, in each case, to Mr. Ribar’s continued service through the applicable vesting date and the terms of our 2012 Omnibus Incentive Plan. Our 2012 Omnibus Incentive Plan provides that the initial and annual non-employee director equity awards described above are granted automatically without the need for further action by our board of directors or the compensation committee, except that non-employee directors who beneficially own more than 25% of our common stock are not eligible to receive such automatic grants.

**NAMED EXECUTIVE OFFICER COMPENSATION,
COMPENSATION DISCUSSION AND ANALYSIS**

Named Executive Officers

This compensation discussion and analysis provides information about our executive compensation programs for our fiscal year 2017 as they relate to the following “named executive officers,” whose compensation is presented in the tables and accompanying narratives following this discussion:

- John Croteau, President and Chief Executive Officer
- Robert McMullan, Senior Vice President and Chief Financial Officer
- Dr. Alex Behfar, Senior Vice President and Chief Scientist, Photonics
- Robert Dennehy, Senior Vice President, Operations
- Preetinder Virk, Senior Vice President and General Manager, Networks

Objectives of Our Executive Compensation Programs

The compensation committee of our board of directors oversees the compensation programs covering our executive officers, including our named executive officers, under its authority as delegated by our board of directors. These compensation programs are designed to:

- attract and retain the best executive talent;
- motivate our executives to achieve our financial and business goals; and
- align our executives’ interests with those of our stockholders to drive increased stockholder value.

To achieve these goals, we structure our executive compensation programs to provide a competitive level of total compensation and create a strong link with our business results by tying a significant portion of each executive’s compensation to the achievement of specific performance goals that we expect will increase stockholder value.

How We Set Executive Compensation

The compensation in effect for our named executive officers for fiscal year 2017 reflects a combination of individually negotiated compensation arrangements that we have entered into with each of our named executive officers and a total compensation program for our executive officers developed in prior periods by our compensation committee and further refined by it in fiscal year 2017 as described in more detail below. The specific terms of these individually negotiated compensation arrangements for our named executive officers were negotiated with either the Chairman of our board of directors or with our Chief Executive Officer serving at the time of such negotiations. Our compensation committee annually reviews and periodically adjusts the total compensation payable to our named executive officers based on the information and factors discussed below and recommendations made by our Chief Executive Officer from time to time (other than with respect to his own compensation). All compensation arrangements and updates to existing compensation arrangements with our named executive officers implemented since our initial public offering have been approved by our compensation committee.

During fiscal year 2017, we did not specifically benchmark the total compensation or individual components of compensation for our named executive officers. However, our compensation committee used industry total compensation data compiled by Radford, our compensation consultant, and proxy statement data as a reference in evaluating and refining our executive compensation programs. More specifically, during fiscal year 2017 our compensation committee reviewed compensation data compiled by Radford from companies with \$200 million to \$2.0 billion in annual revenue, which we believe are comparable to us in size, and proxy statement data

[Table of Contents](#)

gathered from the following companies that we considered similar to us in terms of business lines or in terms of potential competition for executive talent: Analog Corporation, Cabot Microelectronics Corporation, Cavium, Inc., Cirrus Logic Inc., Cypress Semiconductor Corporation, Diodes Incorporated, Integrated Device Technology, Inc., Intersil Corporation, Inphi Corporation, IPG Photonics Corporation, MaxLinear, Inc., Microsemi Corporation, Monolithic Power Systems, Inc., NeoPhotonics Corporation, Power Integrations Inc., Rambus Inc., Semtech Corporation, Silicon Laboratories Inc., Synaptics Incorporated and Tessera Technologies, Inc.

Using such industry total compensation and proxy statement data and subjective factors, such as the relative importance we place on each role within the Company, considerations of peer group equity compensation practices and other factors, such as internal pay equity, the compensation committee in fiscal year 2015 developed total compensation “targets” for each of our executive officer positions. The compensation committee then developed a total compensation program, primarily consisting of base salary, short-term cash incentives and long-term equity incentives, as discussed in further detail below, designed to provide each executive officer with the opportunity to realize targeted total compensation while furthering the objectives of our executive compensation programs described above. Based in part on the results of our 2016 “say-on-pay” vote, in which our stockholders overwhelmingly approved our executive compensation programs, our executive compensation programs were largely carried forward in fiscal year 2017 and were refined based on the compensation committee’s review of the industry total compensation, proxy statement data and subjective factors described above, with minor adjustments as noted in “Elements of Compensation” below. Based on our review of the above-described compensation data, we believe that the total compensation provided to our named executive officers in fiscal year 2017 was generally below market median to market median overall assuming a “target” level of achievement against the performance targets applicable to the short-term cash incentives and performance-based restricted stock unit awards granted to such named executive officers in fiscal year 2017 (discussed in more detail below), and market median to above market median overall assuming a “maximum” level of achievement against such performance targets.

Elements of Executive Compensation

Our compensation programs for our named executive officers primarily consist of the following elements:

- base salary and benefits;
- short-term cash incentives; and
- long-term equity incentives.

Base Salary and Benefits

Base Salary. The base salary for each of our named executive officers was initially determined pursuant to the terms of the executive’s employment agreement, subject to any discretionary increases to such amounts approved by our compensation committee, and reflects each executive’s relative level of experience and responsibility. In fiscal year 2017, the compensation committee authorized a 4% increase to the base salary of our Chief Executive Officer, a 3.3% increase to the base salary of our Chief Financial Officer, and a 3% increase to the base salary of each of our other named executive officers based on its review of the industry total compensation and proxy statement data discussed above. After this review, it was determined that such base salary increases were appropriate to maintain competitive levels of base salary for these individuals.

[Table of Contents](#)

The following table shows the annual base salaries for our named executive officers in place at the end of fiscal year 2017.

Name	Fiscal Year 2017 Annual Base Salary
John Croteau <i>President and Chief Executive Officer</i>	\$650,000
Robert McMullan <i>Senior Vice President and Chief Financial Officer</i>	\$350,000
Alex Behfar <i>Senior Vice President and Chief Scientist, Photonics</i>	\$291,748
Robert Dennehy <i>Senior Vice President, Operations</i>	\$350,097
Preetinder Virk <i>Senior Vice President and General Manager, Networks</i>	\$354,531

Benefits. We generally provide our named executive officers health and welfare benefits, including health benefits and life insurance coverage, as well as the opportunity to participate in and receive matching contributions under our 401(k) plan, in each case, on the same terms as our other salaried employees.

We believe that, in order for us to attract top executive talent, we must not be limited to those individuals residing in the Boston metropolitan area and, in some cases, must be willing to offer to pay for or reimburse an agreed upon amount of relocation, commuting, temporary housing and other related costs. In fiscal year 2017, we made such payments and reimbursements to our Chief Financial Officer in connection with his commuting to work from a home outside the Boston metropolitan area, in the amounts set forth in the “Summary Compensation Table” below.

[Table of Contents](#)**Short-Term Cash Incentives**

During fiscal year 2017, each of our named executive officers participated in our cash incentive programs. Our cash incentive programs were comprised of two six-month performance periods within our fiscal year, with different performance metrics for each period, as described below. Our compensation committee determined the target cash incentive opportunity for each of our named executive officers for fiscal year 2017 based on its business judgment regarding the appropriate level of incentive opportunity to motivate and retain these executives, and to establish an appropriate “pay for performance” linkage between their total compensation and our overall financial results. In making this business judgment, the compensation committee considered each named executive officer’s historical level of incentive opportunity as well as each named executive officer’s respective base salary and level of incentive opportunity relative to those of our other named executive officers. Based on these considerations and those described above with respect to the base salary increases in fiscal year 2017, our compensation committee maintained the target cash incentive opportunity of our named executive officers at their previously-set levels. This target opportunity was also subject to potential discretionary increase or reduction based on individual performance during the period. The following table shows the cash incentive opportunity of each of our named executive officers for fiscal year 2017 assuming “target” level achievement against applicable performance metrics, expressed as a percentage of each executive’s annual base salary.

Name	Fiscal Year 2017 Cash Incentive Opportunity (% of Base Salary)
John Croteau <i>President and Chief Executive Officer</i>	100%
Robert McMullan <i>Senior Vice President and Chief Financial Officer</i>	50%
Alex Behfar <i>Senior Vice President and Chief Scientist, Photonics</i>	50%
Robert Dennehy <i>Senior Vice President, Operations</i>	50%
Preetinder Virk <i>Senior Vice President and General Manager, Networks</i>	50%

First Half 2017 Program. Payments under the cash incentive program for the first half of fiscal year 2017 were based on our performance in that period as compared against the following adjusted operating income goals for the six months ended March 31, 2017:

First Half Fiscal Year 2017 Performance Goal	Threshold	Target	Maximum	Actual Performance
Adjusted Operating Income	\$88.2 million	\$95.5 million	\$110.9 million	\$93.3 million

We selected adjusted operating income as the performance metric for this program as we believe it is a primary driver of stockholder value. The calculation of adjusted operating income excludes the impact of accrued costs for the payment of incentives under the cash incentive program itself, as well as the effect, where applicable, of intangible amortization expense, share-based compensation costs, impairment and restructuring charges, financing and litigation costs, and acquisition- and integration-related costs. If performance exceeded the threshold level, a total pool for all participating employees within the Company would be funded at \$5.3 million for target performance and \$10.6 million for maximum performance. For performance falling between the threshold and target levels, a total pool would be funded at a rate of \$0.726 per \$1.00 of adjusted operating income achieved in excess of the threshold level, and for performance falling between the target and maximum levels, a total pool would be funded at a rate of \$0.344 per \$1.00 of adjusted operating income achieved in excess of the target level. Each named executive officer would be eligible for a payment based on an allocated portion of this pool based on both the executive’s target incentive amount and individual performance. There was no set weighting assigned by the compensation committee to the individual component of the cash incentive program.

Table of Contents

In light of our performance for the first half of fiscal year 2017 (see the “Actual Performance” column in the table above), including the impact of our acquisition of Applied Micro Circuits Corporation (“AppliedMicro”), which occurred during this period and was considered by the compensation committee in determining the threshold, target and maximum performance goals and actual performance level for the performance period, as well as the compensation committee’s assessment that each named executive officer performed at 100% of his expected level of individual performance, we paid each named executive officer approximately 70% of his respective target cash incentive opportunity for the first half of fiscal year 2017.

Second Half 2017 Program. Payments under the cash incentive program for the second half of fiscal year 2017 were based on our performance in that period as compared against the following adjusted operating income goals for the six months ended September 29, 2017:

Second Half Fiscal Year 2017 Performance Goal	Threshold	Target	Maximum	Actual Performance
Adjusted Operating Income	\$111.1 million	\$117.5 million	\$130.3 million	\$90.8 million

We selected adjusted operating income as the performance metric for the second half of fiscal year 2017 for the reasons set forth above. If performance exceeded the threshold level, a total pool for all participating employees within the Company would be funded at \$6.4 million for target performance and \$12.8 million for maximum performance. For performance falling between the threshold and target levels, a total pool would be funded at a rate of \$1.00 per \$1.00 of adjusted operating income achieved in excess of the threshold level, and for performance falling between the target and maximum levels, a total pool would be funded at a rate of \$0.50 per \$1.00 of adjusted operating income achieved in excess of the target level. Each named executive officer would be eligible for a payment based on an allocated portion of this pool based on both the executive’s target incentive amount and individual performance.

In light of our performance for the second half of fiscal year 2017 (see the “Actual Performance” column in the table above), no named executive officer received a cash incentive payment for the second half of fiscal year 2017.

Long-Term Equity Incentives

As part of our compensation committee’s review, evaluation and further development of our executive compensation programs for our named executive officers in fiscal year 2017, and in an attempt to establish a mix of cash and equity compensation for each named executive officer intended to both reward current performance adequately to retain the executive in a competitive marketplace, and provide him with adequate incentives to drive long-term stockholder value, our compensation committee assigned each named executive officer a restricted stock unit award “equity percentage” for 2017 as follows (assuming “target” performance in the case of performance-based equity incentives), and also determined the relative portion of restricted stock units that would be granted to each named executive officer subject to time-based or performance-based vesting criteria, as applicable:

Named Executive Officer	Fiscal Year 2017 Restricted Stock Unit	Time-Based/ Performance-Based
	Equity Percentage	
John Croteau <i>President and Chief Executive Officer</i>	100%	40% / 60%
Robert McMullan <i>Senior Vice President and Chief Financial Officer</i>	85%	40% / 60%
Alex Behfar <i>Senior Vice President and Chief Scientist, Photonics</i>	75%	40% / 60%
Robert Dennehy <i>Senior Vice President, Operations</i>	75%	40% / 60%
Preetinder Virk <i>Senior Vice President and General Manager, Networks</i>	75%	40% / 60%

[Table of Contents](#)

This restricted stock unit equity percentage, when applied to the sum of each named executive officer's base salary and his annual short-term cash incentive opportunity at target, approximates the total cash value of restricted stock unit awards at target that we would typically grant to such named executive officer annually under our executive compensation program. While the equity percentage assigned to a particular executive is considered a guideline and is used by our compensation committee together with annual salary, short-term cash incentive opportunities and other equity incentive awards, such as the performance stock option awards described below, to evaluate each executive officer's "total compensation," the compensation committee retains discretion to vary the amount of any such executive's annual equity grant based on performance factors, the overall dilutive impact of contemplated and previously granted equity awards, the amount of unvested equity awards already held by such executive, perceived anomalies in the current valuation of our common stock or other factors determined to be appropriate by the compensation committee. Our compensation committee determined that, in keeping with our "pay for performance" philosophy, it was advisable to subject all stock option awards, and a substantial portion of the restricted stock unit awards, made to our named executive officers in fiscal year 2017 to vesting based on the achievement of performance metrics the committee believed would increase stockholder value.

Time-Based Equity Incentives. In fiscal year 2017, we provided each of our named executive officers with long-term equity incentives through the grant of restricted stock units subject to time-based vesting under our 2012 Omnibus Incentive Plan. Our compensation committee granted restricted stock units because they believe they provide a valuable retention incentive to our executives. In addition, our compensation committee believes that because restricted stock units require fewer shares to deliver the same amount of retention incentive to a given executive than a stock option award, restricted stock units also reduce the overall potential dilution to our stockholders from our equity compensation programs.

In fiscal year 2017, as part of our annual equity compensation program, we granted our Chief Executive Officer 12,716 restricted stock units, our Chief Financial Officer 4,394 restricted stock units, our Senior Vice President and Chief Scientist, Photonics 3,242 restricted stock units, our Senior Vice President, Operations 3,890 restricted stock units and our Senior Vice President and General Manager, Networks 3,939 restricted stock units, in each case, subject to time-based vesting based on their continued employment with us over four years. Our compensation committee approved these restricted stock unit awards based on its business judgment that they reflected an appropriate level of long-term incentive necessary to retain these executives. The size of each award was determined by the compensation committee based on its consideration of the factors described above. In addition, we granted our Senior Vice President and Chief Scientist, Photonics, 50,000 restricted stock units that vest based on his continued employment over five years as a further long-term retention incentive. Our compensation committee approved this award based on its business judgment that a further sizeable retention incentive was necessary to retain this executive due to the expiration of the Retention Plan described below, the importance of the executive to our business given the recent shift in our business mix toward the optical and photonic markets and our growth aspirations in those markets, and his significant knowledge, responsibilities and capabilities in these areas.

Performance-Based Equity Incentives.

Performance Restricted Stock Units. In addition to the time-based restricted stock unit awards described above, in fiscal year 2017, as part of our annual equity compensation program, we granted our Chief Executive Officer 19,074 restricted stock units, our Chief Financial Officer 6,591 restricted stock units, our Senior Vice President and Chief Scientist, Photonics 4,863 restricted stock units, our Senior Vice President, Operations 5,835 restricted stock units and our Senior Vice President and General Manager, Networks 5,909 restricted stock units, in each case, subject to performance-based vesting conditions. The performance-based restricted stock units granted in fiscal year 2017 are divided into three equal tranches, with one tranche eligible to be earned and to vest based on our non-GAAP earnings per share ("Adjusted EPS") growth during fiscal year 2017, one tranche eligible to be earned and to vest based on Adjusted EPS growth during fiscal years 2017–2018 and one tranche eligible to be earned and to vest based on Adjusted EPS growth during fiscal years 2017–2019, with Adjusted EPS growth goals for performance periods spanning multiple fiscal years based on compound annual growth. For each

Table of Contents

tranche, recipients can earn between 0% to 300% of the target number of performance-based restricted stock units, depending on actual performance, based on straight-line interpolation between performance levels. To the extent earned, the performance-based restricted stock units will be settled in the following May, subject to continued employment with us through the settlement date. Our compensation committee approved these performance-based restricted stock units based on its business judgment that they reflected an appropriate level of long-term incentive necessary to retain these executives and further align their compensation with the attainment of a key performance metric. The size of each award was determined by our compensation committee based on consideration of the factors described above. Adjusted EPS is a non-GAAP financial metric and the calculation of Adjusted EPS excludes discontinued operations, the impact of fair value accounting in mergers and acquisitions (“M&A”) of businesses, M&A costs, including acquisition and related integration costs, certain cost savings from synergies expected from M&A activities, income and expenses from transition services related to M&A activities, expected amortization of acquisition-related intangibles, share-based and other non-cash compensation expense, certain cash compensation, restructuring charges, litigation settlement and costs, changes in the carrying values of assets and liabilities measured at fair value, contingent consideration, amortization of debt discounts and issuance costs, other non-cash expenses, earn-out costs, restructuring costs and certain income tax items. Consistent with prior years, Adjusted EPS growth was selected as the applicable performance metric as our compensation committee believes that growth in Adjusted EPS is a key driver of increases in stockholder value. The Adjusted EPS growth goals for performance-based restricted stock units with completed performance periods that included fiscal year 2017, our actual Adjusted EPS growth for the applicable performance period and the percentage of performance-based RSUs that were earned based on such performance, are set forth in the table below:

Fiscal Year of Grant	Performance Period (Fiscal Year(s))	Threshold (50% of Target Tranche of Performance-Based RSUs Earned)	Target (100% of Target Tranche of Performance-Based RSUs Earned)	Maximum (300% of Target Tranche of Performance-Based RSUs Earned)	Actual Performance	% of Target Tranche of Performance-Based RSUs Earned
2017	2017	5%	10%	30%	37.6%	300%
2016	2016-2017	5%	10%	30%	38.3%	300%
2015	2015-2017	5%	10%	30%	21.5%	215%

Performance Stock Options. In addition to the time- and performance-based restricted stock units described above, in fiscal year 2017, as part of our annual equity compensation program, we granted our Chief Executive Officer 100,000 stock options, our Chief Financial Officer 30,000 stock options, our Senior Vice President and Chief Scientist, Photonics 10,000 stock options, our Senior Vice President, Operations 25,000 stock options and our Senior Vice President and General Manager, Networks 20,000 stock options, in each case, subject to performance-based vesting conditions. These stock options vest as to 100% of the underlying shares if the closing price for our common stock equals or exceeds \$66.96 per share for a period of thirty consecutive trading days (which represented an approximate premium of 50% over the 52-week high price per share of our common stock as of the date the stock options were granted), subject to the executive remaining employed by us through the date such performance metric is met. Our compensation committee approved these performance-based stock options based on its business judgment that they reflected an appropriate level of long-term incentive to retain these executives and further align their compensation with the attainment of increases in stockholder value. The size of each award was determined by our compensation committee based on consideration of the factors described above. In fiscal year 2017, stock options granted to Messrs. Croteau and Dennehy in fiscal year 2015 that were subject to vesting based upon achievement of the laser and related product revenue and adjusted gross margin performance targets listed below for four consecutive quarters became vested and exercisable in full based on our performance during the four consecutive quarters ending on December 30, 2016.

Revenue Target	Actual Performance	Adjusted Gross Margin Target	Actual Performance
\$200.0 million	\$249.2 million	60.0%	70.7%

[Table of Contents](#)

Adjusted gross margin is a non-GAAP financial metric and the calculation of adjusted gross margin excludes discontinued operations, the impact of fair value accounting in M&A of businesses, M&A costs, including acquisition and related integration costs, certain cost savings from synergies expected from M&A activities, income and expenses from transition services related to M&A activities, expected amortization of acquisition-related intangibles, share-based and other non-cash compensation expense, certain cash compensation, restructuring charges, litigation settlement and costs, changes in the carrying values of assets and liabilities measured at fair value, contingent consideration, amortization of debt discounts and issuance costs, other non-cash expenses, earn-out costs, restructuring costs and certain income tax items. Revenue and adjusted gross margin were selected as the applicable performance metrics for the stock options granted to Messrs. Croteau and Dennehy in fiscal year 2015 because our compensation committee believes that revenue and adjusted gross margin are drivers of increases in stockholder value.

Our compensation committee believes that the performance-based stock options and restricted stock units granted to our named executive officers as described above are a useful tool for compensating our executives, in that they align our executives' interests directly with those of our stockholders by tying the vesting of, or the amount that is earned in respect of, an award directly to achieving pre-established measures of performance determined to be important to the Company's success. We believe such awards also provide a valuable retention incentive to executives.

Special Retention Program

In connection with our acquisition of BinOptics in December 2014 (the "BinOptics Acquisition"), the Company and BinOptics adopted the Amended and Restated 2014 Key Employee Retention Plan (the "Retention Plan"). Our Senior Vice President and Chief Scientist, Photonics was a participant in the Retention Plan, along with certain other key employees of BinOptics. Our Senior Vice President and Chief Scientist, Photonics received payments under the Retention Plan in connection with the closing of the BinOptics Acquisition and on the first and second anniversaries of the closing. The amounts paid under the Retention Plan include payments that would otherwise have been made in respect of BinOptics shares and stock options previously held by our Senior Vice President and Chief Scientist, Photonics, payments under a prior retention plan of BinOptics and additional bonus amounts agreed to as part of the BinOptics Acquisition. As of September 29, 2017, no further payments were due under the Retention Plan.

Severance Arrangements

Because we believe it is in our best interests and the best interests of our stockholders to encourage and reinforce the continued dedication and attention of our senior executives, and to minimize the potential for them to be distracted from performing their duties by the potential prospect of a termination of employment, we have agreed to provide our Chief Executive Officer and our Senior Vice President and General Manager, Networks with severance benefits as described in each executive's employment agreement, as described below. In October 2014, following a period of heavy consolidation in our industry and with a similar motivation of keeping our executives focused on managing our business without distraction by a potential change in control, we also adopted the MACOM Technology Solutions Holdings, Inc. Change in Control Plan (as amended, the "CIC Plan"), in which each of our named executive officers participates and which provides severance protection to plan participants in the event their employment is terminated under certain circumstances in connection with a change in control. In adopting and subsequently amending the CIC Plan, our compensation committee was motivated by a belief that the benefits of the plan were reasonable in scope and amount, would better align the interests of our executives with those of our stockholders in the context of a potential change in control and may enhance stockholder value whether or not a future change in control occurs by helping to retain those executives who are participants in this plan. We have subsequently amended the CIC Plan from time to time, most recently in fiscal year 2017, with the intent of providing an adequate retention incentive to our executives in light of unprecedented consolidation taking place in our industry, and in the case of the treatment of performance-based equity incentives under this plan, better aligning the benefits provided under the CIC Plan in respect of such incentives with our historical

performance against related incentive targets in fiscal years 2015 and 2016. See “*Potential Payments upon Termination or Change in Control*” below for a more detailed discussion of these potential payments.

Non-Competition Agreements

With the goal of securing the services of executives who may be key to our success for a period of time and preventing competitors from hiring such personnel away from us, from time to time we may enter into agreements where an executive agrees not to go to work for a competing enterprise for a period of time in exchange for a payment or payments from us. Mr. Croteau’s employment agreement provides for him to have certain non-solicitation and non-competition obligations to us in exchange for salary continuance payments for twelve months following termination of his employment. In connection with the BinOptics Acquisition, we entered into an arrangement with our Senior Vice President and Chief Scientist, Photonics, providing for non-competition covenants from the executive during the term of his employment and for a period of eighteen months thereafter.

Tax and Accounting Considerations

Section 162(m) of the Code (“Section 162(m)”) generally disallows a tax deduction to a public corporation for annual compensation in excess of \$1 million paid to its principal executive officer and the three other most highly compensated named executive officers (excluding the principal financial officer). In the case of a privately held corporation that becomes a public corporation, the \$1 million limit generally does not apply to compensation paid pursuant to a compensation plan or agreement that existed prior to the initial public offering during a limited transition period following such public offering. That transition period expired for us at our 2016 annual meeting of stockholders. In addition, for taxable years beginning before January 1, 2018, compensation that qualifies as “performance-based” is excluded for purposes of calculating the amount of compensation subject to the \$1 million limit. Since the expiration of the transition period described above, the compensation committee has considered the potential deductibility of the compensation payable under our programs when evaluating and establishing our executive compensation programs. However, the compensation committee believes that its primary responsibility is to provide a compensation program that attracts, retains and rewards the executives necessary for our success. Accordingly, and in furtherance of that responsibility, the compensation committee may, in its judgment, authorize compensation that may otherwise be limited as to tax deductibility.

The compensation committee also considers the accounting implications of significant compensation decisions, including decisions that relate to our equity incentive plans and programs. If accounting standards change, we may revise certain programs to appropriately align accounting expenses of our equity awards with our overall executive compensation philosophy and objectives.

The compensation committee will consider the implications of the recent changes to federal tax law as related to our compensation programs and may consider changes to these programs in light of this new legislation as it determines to be appropriate.

Say on Pay

At our 2013 annual meeting of stockholders, our stockholders approved on an advisory basis to hold future advisory votes to approve the compensation of our named executive officers every three years. At our 2016 annual meeting of stockholders, our stockholders approved, on an advisory basis, the compensation of our named executive officers by 97.72% of the shares voted. In light of the stockholder vote on such matter, our current policy is to provide stockholders with an opportunity to approve the compensation of our named executive officers every three years, with the next such vote occurring at the 2019 annual meeting of stockholders.

COMPENSATION COMMITTEE REPORT

The compensation committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management, and, based on such review and discussions, the compensation committee recommended to our board of directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

Pension Benefits

We currently do not (and did not in fiscal year 2017) sponsor any defined benefit pension or other actuarial plan in which our named executive officers participate.

Nonqualified Deferred Compensation

We currently do not (and did not in fiscal year 2017) maintain any nonqualified defined contribution or other deferred compensation plan or arrangement for our named executive officers.

Potential Payments upon Termination or Change in Control

Mr. Croteau is party to an employment agreement with the Company that provides for payments upon an involuntary termination of employment by the Company other than for “cause” (as defined in his employment agreement) and upon a termination of employment by him for “good reason” (as defined in his employment agreement). Pursuant to Mr. Croteau’s employment agreement, if his employment is terminated under the circumstances described above, he would be entitled to receive continued monthly base salary and reimbursements of the Company’s portion of medical and dental benefit premiums (subject to certain conditions) for twelve months following termination, a prorated annual bonus for the year of termination, based on actual performance, and twelve months’ accelerated vesting credit for any outstanding equity awards. In addition, Mr. Croteau’s equity awards would remain exercisable for one year following termination of employment. Mr. Croteau will be subject to non-competition and non-solicitation restrictions for the period during which he is entitled to receive salary continuation.

Mr. Virk is party to an employment agreement with the Company that provides for payments upon an involuntary termination of employment by the Company other than for “cause” (as defined in his employment agreement). Pursuant to Mr. Virk’s employment agreement, if his employment is terminated under the circumstances described above, he would be entitled to 90 days prior written notice of the termination from the Company, and would receive continued monthly base salary for six months following termination (capped at \$157,500 in the aggregate) and, at the Company’s option, either continued medical and dental coverage for the same period or reimbursements of his out of pocket cost for obtaining such coverage for the same period.

In addition, the CIC Plan, in which each of our named executive officers is currently a participant, provides that:

- immediately prior to a “change in control” (as defined in the CIC Plan), subject to the terms and conditions contained in the CIC Plan, any performance-based equity awards held by a participant will be

[Table of Contents](#)

deemed earned at maximum levels of performance as of immediately prior to the change in control and become, exercisable, vested and/or payable on the later of the end of the originally applicable performance period and any further service-based vesting period relating to such award, subject to the participant's continued employment except as set forth below;

- if a change in control occurs and a participant's employment is terminated by us without "cause" (as defined in the CIC Plan) or a participant resigns from employment with us for "good reason" (as defined in the CIC Plan), in each case, within 3 months prior to and in connection with the change of control or within the two-year period following the change in control, the participant will be entitled to the following payments and benefits:
 - o the sum of the participant's annual base salary and target annual bonus for the year in which the termination occurs (multiplied by 2 for Mr. Croteau and by 1.5 for Mr. McMullan), payable in a lump sum;
 - o a prorated annual bonus based on the participant's target annual bonus or, if greater and the termination of employment occurs in the second half of the applicable bonus period, the estimated actual amount of such annual bonus;
 - o a lump sum amount equal to the Company's estimate of the total cost of medical, dental and vision continuation coverage under the Company's group health plan for the participant and his participating dependents for 24 months, in the case of Mr. Croteau, 18 months, in the case of Mr. McMullan, or 12 months, for each of the other named executive officers, in each case, increased by the amount of federal and state taxes imposed on such payments; and
 - o full vesting of all outstanding equity awards held by the participant.

We will make an additional lump-sum cash payment to a CIC Plan participant if the participant becomes subject to an excise tax under Section 4999 of the Code as a result of any payment or benefit made or provided under the CIC Plan, either alone or when aggregated with any other payments or benefits. The net result of the additional payment is to place the participant in the same after-tax position as if the excise tax had not been imposed.

In the event that a participant has an existing agreement with us relating to the participant's potential rights to severance pay, equity acceleration or benefits in connection with a change in control, such rights will be superseded by the rights of the participant under the CIC Plan with respect to any change in control occurring during the term of the CIC Plan, but such agreement otherwise remains enforceable and in full force and effect.

In addition to the benefits provided by the CIC Plan, our performance-vesting stock options become fully vested and exercisable immediately prior to a change in control.

A summary of the potential payments that each of our named executive officers would have received upon the occurrence of these events, assuming that each triggering event occurred on September 29, 2017, for each named executive officer is set forth below.

- (1) “Involuntary Termination” as used in this column includes involuntary termination without cause or a voluntary termination with good reason, as and to the extent provided for in each named executive officer’s employment arrangement. Amounts listed in the “Severance” column include Mr. Croteau’s actual 2017 annual cash incentive, earned based on 2017 performance, and amounts listed in the “Health/Life Insurance Benefits” column are based on the estimated cost of continued medical coverage under the Company’s medical plans as of September 30, 2017.
- (2) All amounts listed beneath this heading represent benefits potentially payable under the CIC Plan. “Involuntary Termination” as used in this column includes involuntary termination without cause or a voluntary termination with good reason, as and to the extent provided for in the CIC Plan. Amounts listed in the “Severance” column are based on the annual base salaries and target annual bonuses in effect as of September 30, 2017 and have been calculated assuming that each named executive officer receives a prorated annual bonus for the year of termination of employment equal to his target annual bonus. Amounts listed in the “Health/Life Insurance Benefits” column have been calculated assuming that the cost of medical, dental and vision continuation coverage under the Company’s group health plan is \$2,000 per month.
- (3) Amounts based on the fair market value of our common stock of \$44.61 per share, which was the closing price of our common stock on September 29, 2017 as reported on Nasdaq, and have been calculated assuming that all outstanding equity awards held by Mr. Croteau that are scheduled to vest based on Mr. Croteau’s continued service within twelve months following September 29, 2017, including performance-based restricted stock units that were earned based on performance in fiscal year 2017 or previous fiscal years, vest in full.
- (4) Amounts based on the fair market value of our common stock of \$44.61 per share, which was the closing price of our common stock on September 29, 2017 as reported on Nasdaq, and have been calculated assuming that all outstanding equity awards vest in full, with outstanding performance awards earned at 300% of target.
- (5) Amounts listed represent an estimate of the additional lump-sum payment that would be payable if a named executive officer became subject to the excise tax under Section 4999 of the Code, as described above based on the assumptions described above, and further assuming that (a) all performance-based equity awards (other than certain stock options) will be deemed earned at the maximum level of performance and will vest in full upon a qualifying termination of employment, based on a price per share equal to \$44.61; (b) the full value of all equity awards so vesting will be parachute payments; (c) each of the named executive officers receives a prorated annual bonus for the year of termination of employment equal to his target annual bonus; (d) the lump sum payment equal to the estimated cost of the Company’s medical, dental and vision continuation coverage is \$2,000 per month; (e) each named executive officer is subject to the maximum applicable federal and state tax rates in effect for 2017; and (f) none of the parachute payments are exempt under a special rule for reasonable compensation. Any actual entitlement to such additional lump-sum payment will be based on the facts and circumstances that exist at the time of a change in control or a termination of employment in connection with a change in control. For Mr. Virk, the additional lump-sum payment that would be payable is based on Mr. Virk’s compensation received from the Company from 2014-2016 only (and does not take in account the compensation he received from Mindspeed in 2012 and 2013, which could have a material impact on the estimated amount included above).
- (6) All amounts listed for Mr. Croteau beneath the “Involuntary Termination for Other than Cause” heading represent benefits potentially payable pursuant to his employment agreement, as described above.
- (7) All amounts listed for Mr. Virk beneath the “Involuntary Termination for Other than Cause” heading represent benefits potentially payable pursuant to his employment agreement, as described above.

PROPOSAL 2: RATIFICATION OF THE APPOINTMENT OF DELOITTE & TOUCHE LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The audit committee has appointed Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending September 28, 2018. Deloitte & Touche LLP has served as our independent public accounting firm since fiscal year 2010. We expect that representatives of Deloitte & Touche LLP will be present at the Annual Meeting, will have an opportunity to make a statement if they so desire, and will be available to respond to appropriate questions.

Our board of directors is submitting the appointment of Deloitte & Touche LLP to our stockholders for ratification as a matter of corporate practice. If our stockholders fail to ratify the appointment, the audit committee may reconsider whether to retain Deloitte & Touche LLP. Even if the selection is ratified, the audit committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of us and our stockholders.

The following table provides information regarding the fees billed by Deloitte & Touche LLP for the fiscal years ended September 29, 2017 and September 30, 2016. Audit Committee Review and Pre-Approval of Independent Registered Public Accounting Firm's Services

Our audit committee's policy is to pre-approve all audit and non-audit services (including the fees and terms thereof) to be performed by our independent registered public accounting firm. This policy is set forth in the charter of the audit committee, which is available at <http://ir.macom.com/documents.cfm>. The audit committee also considered whether the non-audit services rendered by Deloitte & Touche LLP were compatible with maintaining Deloitte & Touche LLP's independence as the independent registered public accounting firm of our financial statements and concluded that they were.

The Board of Directors Recommends a Vote "FOR" the Ratification of the Appointment of Deloitte & Touche LLP as our Independent Registered Public Accounting Firm for the Fiscal Year Ending September 28, 2018.

AUDIT COMMITTEE REPORT

The audit committee has reviewed and discussed the audited financial statements for the fiscal year ended September 29, 2017 with our management and Deloitte & Touche LLP, our independent registered public accounting firm. Management is responsible for the preparation, presentation and integrity of the financial statements, accounting and financial reporting principles and internal control over financial reporting. Deloitte & Touche LLP is responsible for (1) performing an independent audit of the financial statements in accordance with the standards of the Public Company Accounting Oversight Board (“PCAOB”) and for expressing opinions on the conformity of the financial statements with accounting principles generally accepted in the United States, and (2) performing an independent audit of our internal control over financial reporting statements in accordance with the standards of the PCAOB based on the criteria established in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and for expressing an opinion thereon.

The audit committee has discussed with Deloitte & Touche LLP the matters required to be discussed by PCAOB Auditing Standard No. 16, *Communications with Audit Committees*, and has received the written disclosures and the letter from Deloitte & Touche LLP required by applicable requirements of the PCAOB regarding the independent auditor’s communications with the audit committee concerning independence. The audit committee has also discussed with Deloitte & Touche LLP their independence.

Based on its reviews and discussions referred to above, the audit committee recommended to the board of directors that the audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended September 29, 2017 for filing with the SEC.

**SECURITY OWNERSHIP OF
CERTAIN BENEFICIAL OWNERS, DIRECTORS AND MANAGEMENT**

The following table presents information as to the beneficial ownership of our common stock as of December 29, 2017 for:

- each person who we know beneficially owns more than 5% of any class of our voting securities;
- each of our current directors or nominees;
- each of our named executive officers as set forth in the 2017 Summary Compensation Table above; and
- all of our directors and executive officers as a group.

Unless otherwise noted, the address of each beneficial owner listed in the table is c/o MACOM Technology Solutions Holdings, Inc., 100 Chelmsford Street, Lowell, Massachusetts 01851.

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of our common stock that they beneficially own, subject to applicable community property laws.

Applicable percentage ownership is based on 64,400,714 shares of our common stock outstanding as of December 29, 2017. In computing the number of shares of our common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of our common stock subject to stock options, restricted stock units or warrants held by that person that are currently exercisable or exercisable (or, in the case of restricted stock units, scheduled to vest and settle) within 60 days of December 29, 2017. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person.

Mr. Chung is a member of Summit Master Company, LLC, which is the general partner of Summit Partners, L.P. Accordingly, Summit Partners, L.P. and Summit Master Company, LLC may be deemed indirect beneficial owners of the shares, restricted stock units and underlying shares held in the name of Mr. Chung. Mannion and Chung, each disclaim beneficial ownership of the shares, restricted stock units and underlying shares held in the name of Mr. Chung except to the extent of their pecuniary interest therein. CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

We describe below transactions and series of similar transactions to which we were a party since the beginning of our last fiscal year or will be a party in the future, and in which:

- the amounts involved exceeded or will exceed \$120,000; and
- any of our directors, executive officers or beneficial owners of more than 5% of any class of our voting securities, or any member of the immediate family of the foregoing persons, had or will have a direct or indirect material interest.

Indemnification of Officers and Directors

Our fifth amended and restated certificate of incorporation and third amended and restated bylaws (“Bylaws”) limit the liability of each of our directors and provide that we will indemnify each of our directors and officers to the fullest extent permitted by Delaware law. Our Bylaws also permit us to secure insurance on behalf of any officer or director for any liability arising out of his or her actions in connection with their services to us, regardless of whether our Bylaws permit such indemnification. In addition, we have entered into separate indemnification agreements with each of our directors and certain of our officers. These agreements, among other things, provide that we will indemnify our directors and officers for certain expenses (including attorneys’ fees), judgments, fines and settlement amounts reasonably incurred by such person in any action or proceeding, including any action by or in our right, on account of any services undertaken by such person on our behalf or that person’s status as our director or officer.

Acquisition of Nitronex

In February 2014, we acquired Nitronex (the “Nitronex Acquisition”). Prior to the Nitronex Acquisition, 100% of the outstanding membership interests in Nitronex were owned by GaAs Labs (a stockholder of the Company and an affiliate of our directors, Mr. and Mrs. Ocampo). We made a cash payment to GaAs Labs of \$26.1 million at the closing of the Nitronex Acquisition for all of the outstanding ownership interests of Nitronex. The purchase price included \$3.9 million held on account by a third-party escrow agent pending any claims by us in connection with representation and warranties made by GaAs Labs in the Nitronex Acquisition. The indemnification period expired in August 2015, at which point all but \$500,000 of the escrow fund was released to GaAs Labs and the remainder was retained by the escrow agent pending final resolution of an outstanding indemnity claim, which as of January 16, 2018, remained unresolved.

Cadence Design Systems, Inc.

Cadence provides us with certain engineering licenses on an ongoing basis. Geoffrey Ribar, who joined our board of directors on March 22, 2017, served as an officer of Cadence through September 30, 2017. During fiscal year 2017, we made payments of \$6.3 million to Cadence subsequent to Mr. Ribar joining our board of directors.

Second Amended and Restated Investor Rights Agreement

We are party to an investors’ rights agreement, as amended and restated on February 28, 2012 and further amended on May 20, 2013 (the “IRA”), with a group of our stockholders that includes entities affiliated with Mr. and Mrs. Ocampo, who are both members of our board of directors and beneficial owners of more than 5% of a class of our voting securities, and including certain investment funds affiliated with Summit Partners, L.P., which is affiliated with another of our directors, Mr. Chung. Subject to the terms and conditions of the IRA, these stockholders have registration rights with respect to the shares of our capital stock or warrants they, or certain of their affiliates, hold, including the right to demand that we file a registration statement or request that their shares be covered by a registration statement that we are otherwise filing.

Policies and Procedures for Related Person Transactions

We do not currently have a formal, written policy or procedure for the review and approval of related person transactions. However, our audit committee charter provides that our audit committee is required to review and approve or ratify any related person transactions, as defined under Regulation S-K Item 404. Our code of conduct and ethics also prohibits our directors and officers from engaging in a conflict of interest transaction without disclosure to and approval from the board of directors or one of its committees. Each of the related person transactions described above was reviewed and either approved or ratified by our audit committee, and we intend to follow this practice for any future related person transactions.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), requires our directors, officers and beneficial holders of more than 10% of a registered class of our equity securities to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. As a practical matter, we assist our directors and executive officers by monitoring transactions and completing and filing Section 16 reports on their behalf. To our knowledge, based solely on a review of the copies of such reports and written representations from our executive officers and directors that no other reports were required, we believe all required reports under Section 16(a) of the Exchange Act of our directors, executive officers and beneficial holders of more than 10% of a registered class of our equity securities were timely filed since the beginning of fiscal year 2017, other than one late Form 4 filed on January 9, 2018 on behalf of Dr. Behfar to report shares withheld by the Company to satisfy tax withholding obligations in connection with the vesting of restricted stock units.

Stockholder Proposals for Presentation at 2019 Annual Meeting of Stockholders

For any proposal that is not submitted for inclusion in next year's proxy statement, but is instead sought to be presented directly at the 2019 Annual Meeting of Stockholders, stockholders are advised to review our Bylaws as they contain requirements with respect to advance notice of stockholder proposals not intended for inclusion in our proxy statement and director nominations. To be timely, a stockholder's notice must be received by our General Counsel at our principal executive offices not less than 45 days or more than 75 days prior to the first anniversary of the date we first mailed our proxy materials or Notice of Internet Availability of Proxy Materials (whichever is earlier) for the prior year's Annual Meeting of Stockholders. Accordingly, any such stockholder proposal must be received between November 2, 2018 and December 2, 2018. However, in the event that the 2019 Annual Meeting of Stockholders is convened more than 30 days prior to or delayed by more than 30 days after March 1, 2019, notice by the stockholder to be timely must be received not later than the close of business on the later of the 90th day prior to such annual meeting or the 10th day following the date on which public announcement of the date of the 2019 Annual Meeting of Stockholders is made. Copies of the pertinent Bylaw provisions are available on request to the following address: General Counsel, MACOM Technology Solutions Holdings, Inc., 100 Chelmsford Street, Lowell, Massachusetts 01851.

As required by our Bylaws, any stockholder submitting a director nomination must include the name, biographical information and other relevant information relating to the recommended director nominee, including, among other things, information that would be required to be included in the proxy statement filed in accordance with applicable rules under the Exchange Act and the written consent of the director nominee to be named as a nominee and to serve as a director if elected, among other requirements set forth in our Bylaws.

The board of directors and any individual director may at any time request copies and review all correspondence received by the General Counsel that is intended for the board of directors or such individual director.

Delivery of Materials to Stockholders with Shared Addresses

We have adopted a procedure, approved by the SEC, called “householding.” Under this procedure, any stockholder, including both stockholders of record and beneficial holders who own their shares through a broker, bank or other nominee, who share an address with another such holder of our common stock are only being sent one Notice of Internet Availability of Proxy Materials or set of proxy materials, unless such holders have provided contrary instructions. Householding helps us reduce printing and postage cost associated with the distribution of proxy materials and helps to preserve natural resources. We will promptly deliver a separate copy of the Notice of Internet Availability of Proxy Materials or set of proxy materials to you upon written or oral request. If you wish to receive a separate copy of these materials or if you are receiving multiple copies and would like to receive a single copy, please contact our investor relations department by phone at (978) 656-2500, or by writing to Investor Relations, MACOM Technology Solutions Holdings, Inc., 100 Chelmsford Street, Lowell, Massachusetts 01851.
