

## **M/A-COM Technology Solutions Showcases New Products at OFC/NFOEC Show, 2012**

What: M/A-COM Technology Solutions (M/A-COM Tech), a leading supplier of high performance analog semiconductor solutions, is showcasing a broad portfolio of new products for optical communications and networks at the OFC/NFOEC tradeshow, in Los Angeles, California.

Product solutions on display in M/A-COM Tech's Booth #1650 include two new modulator drivers and transimpedance amplifiers for 10G, 40G, and 100G systems. The MAOM-002204 100GbE Modulator Driver is an ultra low power quad-channel driver. This integrated driver includes four 28G EML drivers in one surface-mount package.

The portfolio of M/A-COM Tech's 100G Coherent Modulator Drivers have been developed for 100G DP-QPSK applications. The drivers are available as single or dual channel in surface-mount packages, or as a quad-channel in a GPPO package.

**When:** March 6-8, 2012; Exhibition Hours:

Tuesday, March 6 10:00AM – 5:00PM

Wednesday, March 7 10:00AM – 5:00PM

Thursday, March 8 10:00AM – 4:00PM

**Where:** Booth #1650, Los Angeles Convention Center, Los Angeles, California.

## **ABOUT M/A-COM TECHNOLOGY SOLUTIONS INC.**

M/A-COM Technology Solutions ([www.macomtech.com](http://www.macomtech.com)) is a leading supplier of high performance analog semiconductor solutions for use in radio frequency (RF), microwave, and millimeter wave applications. Recognized for its broad portfolio of products, M/A-COM Tech serves diverse markets, including CATV, wireless infrastructure, optical communications, aerospace and defense, automotive, industrial, medical, and mobile devices. M/A-COM Tech builds on more than 60 years of experience designing and manufacturing innovative product solutions for customers worldwide.

Headquartered in Lowell, Massachusetts, M/A-COM Tech is certified to the ISO9001 international quality standard and ISO14001 environmental management standard. M/A-COM Tech has design centers and sales offices throughout North America, Europe, Asia and Australia.
