## **MACOM to Showcase Extensive Portfolio of Optical and Photonic Solutions at OFC 2016**

LOWELL, Mass.--(BUSINESS WIRE)-- M/A-COM Technology Solutions Inc. ("MACOM"), a leading supplier of high-performance analog RF, microwave, millimeterwave, photonic semiconductor products and components, will debut a newly expanded portfolio of optoelectronics and photonic solutions at OFC 2016 in Booth #3101. Leveraging deep domain experience in optical networking, along with a combination of semiconductor technologies, MACOM provides innovative and smart solutions supporting datacenter, client access (NGPON and Mobile front and backhaul), metro and long-haul applications.

Our complete and robust portfolio features lasers, photodetectors, drivers, TIAs, CDRs, PMDs, optical sub-assemblies (TOSA/ROSA), Silicon PICs and crosspoints for line and client-side systems. MACOM will be showcasing its product portfolio serving optical communication applications for enterprise and telecom infrastructure, including:

- | L-PIC™ or lasers integrated with silicon photonic integrated circuits
- | PAM-4 datacenter capability featuring low power and small footprint
- | High-speed components and optical sub-assemblies with industry leading performance and power
- | Higher baud rate (46G and 64G) driver solutions for long haul and metro applications

**Demonstrations will be on display by appointment only in MACOM's booth, #3101.**

Hear Atul Gupta- Chief Technologist, High-Performance Analog Group at MACOM, discuss PAM options in the 100G Serial Electrical Technology Session, Thursday, March 24th at 4:00 PM.

Members of MACOM's product management, engineering and applications teams will be available to answer any inquiries or questions at the show. To preview these technologies and/or schedule a meeting with MACOM at OFC 2016, March 22 - 24th in Anaheim, CA, contact your local sales representative or visit [www.macom.com](http://www.macom.com).

Anaheim Convention Center Exhibition Hours:

Tuesday, March 22nd from 10:00 AM - 5:00 PM

Wednesday, March 23rd from 10:00 AM - 5:00 PM

Thursday, March 24th from 10:00 AM - 4:00 PM

### **ABOUT MACOM:**

M/A-COM Technology Solutions, Inc. ([www.macom.com](http://www.macom.com)) is a leading supplier of high-performance analog RF, microwave, millimeterwave and photonic semiconductor products that enable next-generation internet and modern battlefield applications. Recognized for its broad catalog portfolio of technologies and products, MACOM serves diverse markets, including high speed optical, satellite, radar, wired & wireless networks, automotive, industrial, medical and mobile devices. A pillar of the semiconductor industry, we thrive on more than 60 years of solving our customers' most complex problems, serving as a true partner for applications ranging from RF to Light.

Headquartered in Lowell, Massachusetts, MACOM is certified to the ISO9001 international quality standard and ISO14001 environmental management standard. MACOM has design centers and sales offices throughout North America, Europe, Asia and Australia.

MACOM, M/A-COM, M/A-COM Technology Solutions, M/A-COM Tech, Partners in RF & Microwave, The First Name in Microwave and related logos are trademarks of MACOM. All other trademarks are the property of their respective owners.
