# Supplemental Presentation of Selected Quarterly Non-GAAP Financial Information for Fiscal Years 2014-2015, Including Proforma Adjustments Related to Automotive Business Divesture and Reconciliation to GAAP 

As announced in its press release dated August 17, 2015, M/A-COM Technology Solutions Holdings, Inc. (MACOM) has provided below selected quarterly statement of operations data for its fiscal years 2014 and 2015, calculated on a non-GAAP basis, including pro forma adjustments related to the August 17, 2015 divestment of MACOM's automotive module business as well as a reconciliation of each non-GAAP financial measure presented to the most comparable GAAP financial measure. The pro forma adjustments for the automotive divestiture assume that the divestiture was completed on the first day of each quarterly fiscal period for which information has been presented. For more pro forma and other information concerning the automotive divestiture please refer to MACOM's current report on Form 8-K filed with the Securities and Exchange Commission on August 20, 2015, which is available at www.sec.gov.

## Non-GAAP Financial Measures

In addition to GAAP reporting, MACOM provides investors with non-GAAP financial information, including revenue, gross margin, operating margin, operating income, net income, earnings per share, Adjusted EBITDA and other data calculated on a non-GAAP basis. This non-GAAP information excludes the operations of Nitronex prior to the date of acquisition, discontinued operations, the impact of fair value accounting in merger and acquisitions $(\mathrm{M} \& \mathrm{~A})$ of businesses, $\mathrm{M} \& \mathrm{~A}$ costs, including acquisition and related integration costs, certain cost savings from synergies expected from M\&A activities, income and expenses from transition services related to M\&A activities, expected amortization of acquisition-related intangibles, share-based and other non-cash compensation expense, certain cash compensation, restructuring charges, litigation settlement and costs, changes in the carrying values of assets and liabilities measured at fair value, contingent consideration, amortization of debt discounts and issuance costs, other non-cash expenses, earn-out costs, exited leased facility costs and certain income tax items. Management does not believe that the excluded items are reflective of MACOM's underlying performance. The exclusion of these and other similar items from MACOM's non-GAAP presentation should not be interpreted as implying that these items are non-recurring, infrequent or unusual. These and other similar items are also excluded from Adjusted EBITDA, which is non-GAAP earnings before interest, income taxes, depreciation and amortization. MACOM believes this non-GAAP financial information provides additional insight into MACOM's on-going performance and has, therefore, chosen to provide this information to investors for a consistent basis of comparison and to help them evaluate the results of MACOM's on-going operations and enable more meaningful period to period comparisons. These non-GAAP measures are provided in addition to, and not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP.
